

Humber Bay Butterfly Habitat

Volunteers Needed:

Welcome to the Community Stewardship Program at
Humber Bay Butterfly Habitat

If you are interested in joining the Humber Bay Butterfly Habitat team of the Community Stewardship Program please contact greentoronto@toronto.ca

This group has been active since 2003 when the Habitat was opened. We would love to see more Humber Bay Shores residents join us. Our team meets every Wednesday at the Butterfly Habitat -- to reiterate the program description for you, the Community Stewardship Program involves volunteers in on-going maintenance and monitoring activities at different naturalization sites throughout the City.

We visit our site every Wednesday from 6 pm to 8 pm – starting on May 6, 2015 and ending in early to mid September. Stewardship activities can include weeding invasive non-native plant species, maintaining native vegetation, mulching, planting, photo monitoring, collecting litter, and monitoring water quality and pollinators.

We will provide you with any training you need on site -- all equipment will be provided, including gloves. For new stewards, an orientation session is planned for Thursday April 30th at the Toronto Archives building (255 Spadina Rd.). You must register to be part of orientation by email to **greentoronto@toronto.ca**

If you are just curious about the 'habitat' and want to come down and visit please join us any Wednesday between 6 pm and 8 pm.

I'll keep you up to date with my weekly emails about what to expect each week. We hope you'll join us!
