

Humber Loop - Infrastructure Improvements Humber loop and underpass walkway **closed**

Start date: April 24, 2017 to spring 2018

Work description and purpose

As part of this year's City/TTC infrastructure improvement projects scheduled along the west end of the 501/301 Queen streetcar route, TTC will begin work at Humber Loop requiring the closure of the loop and the underpass walkway from April 24, 2017 to spring 2018.

Work includes

New tracks, accessible streetcar platforms, new shelters, new/wider underpass walkway, roof replacement of existing the service building, new electrical sub-station and associated underground conduits.

Work hours

Work on this project will use extended hours to ensure the project is completed on schedule and as quickly as possible. The work hours are typically 7 a.m. to 11 p.m. with work on weekends when required. The track installation phase of this project will involve periods of late evening and overnight work.

Changes to service

- There will be no transit service into the loop.
- 66A branch of the Prince Edward route will bypass the loop and extend east to Ellis Avenue, returning westbound via south on Ellis Avenue, west on Lake Shore Boulevard West, north of Windermere Avenue and west on The Queensway to regular routing. *See map.*
- 501/301 Queen service continues to operate with buses west of Roncesvalles Avenue (since January 8, 2017), on The Queensway and Lake Shore Boulevard West, bypassing Humber Loop.

Thank you for your patience as we work to improve transit in Toronto.
